

METAPHYSICS IN MEDIA

Despite an unforgettable late summer 2016 aftermath from an eclipsed feminine polarity in Virgo/Pisces, knowing the tree by its fruit bearing seed reveals a divine genus clue: exchange passive resignation for active demonstration to resist whatever is not enduring, good, and true. As light illumines the dark, and we ponder the harmonic cycles of celestial spheres, remember facts are facts with Principle intact as Truth (the Tao - "tai chi") remains unified and clear!

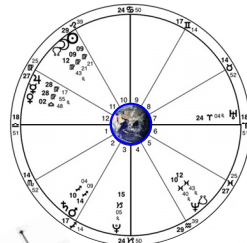

Late 2016 into 2017 Uranus the Awakener soon opposes Jupiter the Beneficent, and squares Pluto the Transformer igniting unexpected, shocking

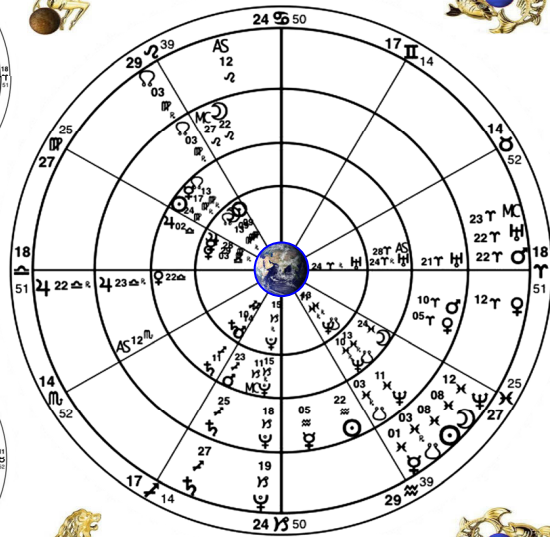

tectonic consequence(s) with revolutionary and Life changing new year irony, innovation, intent, and ideology for global social order, sovereignty, infrastructure and policy.

Recurring Pisces new and full moon eclipses illumine unprecedented crises over our globe: 1 in Q1'15, 2 in Q1 & Q3'16, another in Q1'17 during a lunar year yet to unfold. And with Neptune's cumulative spiritual emphasis in the Zodiac's final sign, what measurable faith, grace and sacrifice are required to meet this consequential time? In seasons of heightened fear, conflict, and uncertainty, word to the wise: don't be mesmerized by a **MARKED** pay for play piper's melody, leading to false compromise, perdition and inhumanity!

Like a voice crying in the wilderness, aquatic and land-based life, flora and fauna sign alarm for Gaians who honor dominion and seek peace to concertedly detox and disarm. A reckoning can be enlightening for the life you save, and any land of liberty, is because of free thinkers and their brave; but addictively numbing the pain, deadening reason and sensibility, what's that gain? Sowing delusion and apathy reap the same, and after thorough analysis, that's insane.... So fear not, focus on solutions a lot; stay informed, and "gird up dem loins!"

Beyond the autumn and summer's 2016 eclipse syzygy, into 2017 there's a progressively constructive Mars, Jupiter, and Saturn synastry that will further delineate our ongoing Neptune/Saturn square of illusion versus reality.

Mass extrasensory intercommunication with the spiritual and non-terrestrial hallmark 2017 cosmology amid a roaring vigilance for human rights and tried and true democracy among prevailing leaders and global citizenry. In separating the wheat from the chaff, while societal national populism (individual) vs. international globalism (collective) confound en masse, rogue robber barons and oligarchs seize capital(s) and cache!
